WALTHAM WATCHES

Waltham Watches, use that kind of lan-guage which leads the customer to buy just such a watch as is the most profitable for the lealer to sell.

For the information of persons about to

For the information of persons about to buy a watch, and who may be unfavorably sffected by the representations of those unfriently to our watches, we call attention to the following suggestions:

Since the manufacture of watches was initiated at Waitham, the Company have made and sold about 400,000 watches. In every town and village of the country some wearer of a Waitham Watch may be found. Let the party about to buy ask this owner of an American Watch this question:

HAS YOUR WATCH GIVEN YOU SAT-ISFACTION? ISFACTION?
We are not afraid to advise those wishing to buy a watch to guide themselves by the answer. Being satisfied as to the quality of the watch, the buyer has now only tosatisfy himself that the Waltham Watches are THE the watch, the buyer has now only tosatisfy himself that the Watcham Watches are THE OHEAPEST as well as the best. On this thead we have a few words to say:

It is a well known fact in manufacturing, that the greater the number of articles manufactured by one establishment, the smaller will be the cost of each individual article. Keeping this in view, our policy has always been to sell our products at the lowest possible price in order to secure large sales, and thus enable us to manufacture watches at a minimum cost. WE BELIEVE IN SMALL PROFITS AND A LARGE BUSINESS. This policy we have successfully carried out, and the result is, that to-day we manufacture twice as many watches as all the other factories in the United States put together. We can, therefore, afford to sell Cheaper than they do quality for quality.

We would further remark that infincreasing our production we have constanily improved its QUALITY AND ITS VARIETY. We have had the relusal of nearly all inventions intended to improve time-picces, and have adopted all those, and those only, which have proved to be really valuable. We have retained in our employment every head of a department we have ever had whose services were of any importance to the Company, and our present corps of designers and master mechanics caenot be equaled in this or any other country. In addition to this we make gold and silver cases, not only for our own movement, but for those of other factories, ours being the

addition to this we make gold and sliver cases, not only for our own movements, but for those of other factories, ours being the only establishment that turns out watches complete in every respect.
